Cyber warfare is one of the biggest threats our nation faces. Can you discover your talent, advance your skills, and qualify for industry training as a digital soldier?

5,000+
JROTC/CAP community members

250+
free cybersecurity challenges

CyberStart America gives JROTC and CAP students in 9th - 12th grade free access to the world-renowned CyberStart game!

Discover

Lace up your boots and jump straight into defending the online world against cyber criminal gangs. And when you're stuck, use the step-by-step walkthroughs and guides to help.

Advance

Develop leadership, citizenship, resilience and out the box thinking skills with over 250 cybersecurity challenges and puzzles.

Qualify

Top performers in CyberStart may be invited to enroll in cybersecurity training via SANS Foundations, and to pursue a GIAC Certification!

> Receiving a National Cyber Scholarship would help me to achieve the dream- that was started by JROTC/CAP CyberStart- to become a Cyber Security expert!
>
> — Gwendolyn, Tennessee

> CyberStart was challenging and a great experience. The challenges were engaging, interesting, and complex. It made me think a lot and problem solve. I had an awesome time, and I was excited all the way through!
>
> — TJ, Army JROTC

97% of players would recommend CyberStart to a friend.

89% of people rated their CyberStart game experience above 4/5.
