Battle Fit Challenge (8th BDE)

Be All You Can Be

Task: The task is to assess the physical readiness of individuals as they complete three physically demanding events for time, push-ups, modified sit-ups, and a 1 mile run. This is an individual event which will produce a unique score for each Cadet based on their performance. For teams registered in the Masters Division, individual scores will be compiled into one collective team score which will contribute to overall team placement.

Conditions:

1. The Battle Fit Challenge will be conducted with 10 lanes. One grader and one timekeeper per lane.
2. The Battle Focused Challenge (BFC) is an individual assessment of Cadet physical fitness, but teams will remain together as individuals are assessed at each station.
3. Push-ups and modified sit-ups will be conducted on a covered athletic field.
4. The run route is a half a mile in length and will be run twice to record a 1 mile run time.
5. Judges will assess accurate repetitions at each stationed and log start and finish times for the run to capture accurate scores for each Cadet.
6. The uniform for this event consists of athletic shorts, t-shirt (team t-shirt), and athletic shoes. The athletic jacket may be worn if the weather conditions dictate, as decided by the team.

Standards:

1. Competitors will execute as a team and will remain in that team throughout the event.
2. First event will be individual 1 minute max push-up event. Upon completion, competitors will move to the sit-up bars. Upon completion, competitors will have 10 minute rest period before beginning the modified sit-up event.
3. Second event will be individual 1 minute max of modified sit-ups. Upon completion, competitors will have 10 minute rest period before beginning third and final event.
4. Third event will be 1-mile run. Teams will begin at the start point and run two laps around the .5 mile course.
5. The flow will be managed by the Event OIC. When all competitors have completed the 3x events, score sheets will be tallied by the event NCOIC.

Note: The specific rules and penalties for non-compliance may not be provided in the information. Referring to the official regulations or guidelines for detailed instructions and consequences regarding the Battle Fit Challenge event in the JROTC National Raider Challenge SOP is recommended

Cross Country Rescue (2nd BDE)

Be All You Can Be

Task: The task is to complete a one mile "rescue" course through wooded terrain with obstacles while carrying rucksacks and a simulated casualty. The team must navigate the course, overcome obstacles, and reach the finish line to score a time.

Conditions:

1. The course is a one-mile route through wooded terrain with obstacles integrated along the route.
2. Teams will consist of 10 Cadets, in which they must start and finish with the entire team. Teams with less than 9 members will not be allowed to compete.
3. Judges will be stationed along the route to ensure compliance with the rules.
4. Multiple teams are allowed on the course at a given time, with a minimum of 5 minutes between staggered starts. Teams may pass slower teams during the route. But not to interfere with the other team's progression on the course.

Standards:

1. On the command "GET SET, GO," the team will immediately go over an 8' wall with all team members and the rucks. Failure to attempt this segment is a disqualification if not attempted, but teams may choose to bypass the wall after two failed attempts by taking a penalty.
2. After completing the wall, the team will pick up the simulated casualty litter and proceed to a 40' long water/mud pit. The team will run through the mud pit while carrying the litter and rucksacks.
3. Once the team completes the mud pit, they will continue with the litter and rucksacks along the marked trail.
4. The team will encounter a series of over and over obstacles, 4' wide with over obstacles at 40" high and more over obstacles at 24" high. The team will negotiate the obstacle with the litter and rucksacks. Once complete with the obstacle, teams will continue on the marked trail.
5. The team will encounter a tire swing obstacle. The obstacle will have six tires suspended 3' off the ground. **6 of the 10 members will have 5 minutes to negotiate the obstacle. The other 4 members will hold/wear the 6 rucks and litter at the end of the obstacle until their team is complete or their 5 minutes is up, whichever comes first. The rucks and litter will never touch the ground.** The 6 members must negotiate the obstacle without making contact with the ground. If they touch the ground, they must go to the back of their team's line on the obstacle and then attempt to negotiate the obstacle again. At the completion of the 5 minutes, every member that hasn't successfully negotiated the obstacle will receive a minor penalty.
6. Finally, the team will move to the finish line with the rucksacks and litter. The time will stop once the last person crosses the finish line.

Note: The specific rules and penalties for non-compliance may not be provided in the information. Referring to the official regulations or guidelines for detailed instructions and consequences regarding the Cross Country Rescue event in the JROTC National Raider Challenge SOP is recommended.

Scoring

Be All You Can Be

Competing teams may receive several penalties on both obstacles or courses by a judge or event official. They are shown below:

Disqualified (DQ) - The team performed in a manner where the judge or event official removed the team from the competition scoring process for that event. The team would no longer be eligible for any overall awards or any awards in the event they are disqualified from. The penalty assessed will be 99:99 for that event.

Did Not Finish (DNF) - The team performed in a manner where a judge or event official directed the teams to end their competition on a specific course either due to time or injury. The penalty assessed will be 79:99 for that event.

Failure to Attempt (FTA) – The team was deemed by a judge or event official to have failed to properly attempt an obstacle. Attempt will be defined as, “to make a significant effort to accomplish the task given”. A Major Penalty assessed for an FTA.

Failure to Complete (FTC) - The team was deemed by a judge or event official to have Failed to Complete an obstacle. This is after two attempts, or a judge may direct them past an obstacle due to time, injury or improper technique which may cause injury. A Standard Penalty will be assessed for an FTC.

Minor Penalty (MINOR) - 30 second time addition to the team's overall event time per occurrence.

Standard Penalty (STANDARD) – 1 minute time addition to the team's overall event time per occurrence.

Major Penalty (MAJOR) - 10 minutes time addition to the team's overall event time per occurrence.
